- Do not use unqualified power sources, charged power cables or adapters, otherwise your safety may be endangered. To avoid fire hazards, please separate them in time. Please do not use them.
- If you are not a technician, please do not try to modify, disassemble, or repair the equipment to avoid damage to the equipment.
- If an abnormality occurs to the equipment, please check whether it is operated according to the normal usage requirements. To avoid shock according to the troubleshooting. If the problem cannot be solved, please contact the seller in time.
- When adding essential oil, please do not drop essential oil into the device, and the device must not be turned upside down or tilted when in use.
- If the equipment needs to be transported to other location, please restrain and clean the equipment base. Equipment Maintenance for details before packing and transporting to avoid essential oil evaporation and damage to the equipment.
- Please restrain and clean the equipment regularly to ensure that the equipment remains in optimal working condition.

No tipping or tilting

Do not drop essential oil

02 Introduction

Replace and arrange the packaging

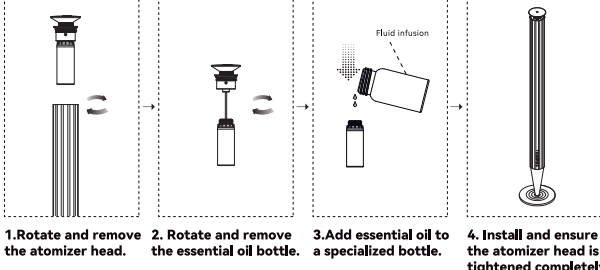

Power light

DC 5V 2A power adapter

03 Usage method

How to fill the oil bottle

1. Use essential oil to ensure the normal operation of the machine

Essential oil replacement:

- 1. Rotate and remove the essential oil head for 2 minutes before adding essential oil, again, and unclamp the essential oil bottle after 10 minutes to ensure the added head opens.
- 2. It is recommended to control the amount of essential oil added within 40 days each time to avoid deterioration of essential oil due to oxidation.

04 Function description

About Charging Indicator

Plugging in USB will automatically charge

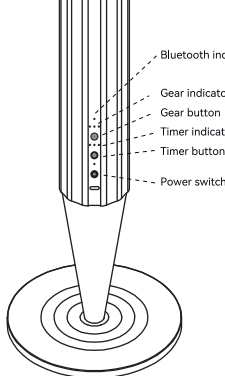

Indicator	Indication
Charging	Gear indicator light cycle flash on
Fully charged	Gear indicator light on always on
Low battery	Gear indicator light flash together and off after 10 seconds

Work level indicator

- Light "H" working 160mg 100%
- Light "M" working 160mg 100%
- Light "L" working 160mg 100%

Timing indicator

- Light on 2h: work for 2h then turn off
- Light on 4h: work for 4h then turn off
- Light on 8h: work for 8h then turn off

05 App description

Bluetooth App

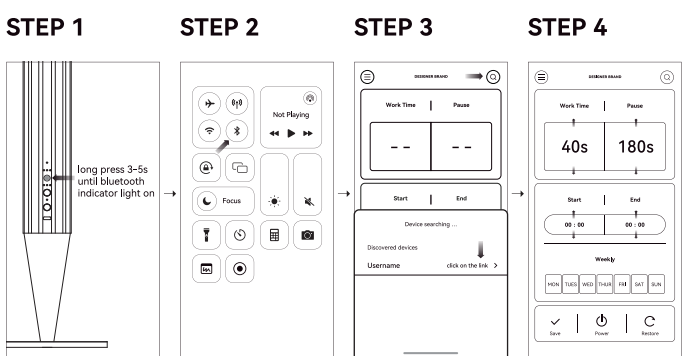

- Download App for smartphone scan the following App QR and choose to download (not on responding to iOS or Android phone)
- Long press the "H" button for 3s to switch to Bluetooth mode (On the contrary, long press the "H" button again for 3s to switch back to Button Mode)
- Turn on Bluetooth mode on your cell phone
- Turn on your APP, click the search button "Q" in the upper right corner to connect to the phone, and then you can control the effect with your smartphone

Note: One software can only connect to one mobile phone. If others need to connect, the previous phone needs to disconnect Bluetooth.

06 Application Operation Diagram

07 Maintenance

In order to ensure the best fragrance effect, customers are required to replace and maintain the equipment every two months. Other new fragrance types need to be replaced or the fragrance effect will be weakened.

1. Unclamp the used oil bottle

2. Pour a suitable amount of essential oil into the bottle and close the bottle

3. After shaking, pour a small amount of essential oil into the bottle and install it in the device, then use the device working for 2-3 minutes

4. After the diffuser is closed, turn off the power

08 Data references

For Reference	
Power Consumption Under full charge	200 hours in first gear 140 hours in second gear 80 hours in third gear
Oil consumption (mL/h)	First gear: 0.5 mL/h, One bottle of essential oil can be used for 420 hours Second gear: 0.3 mL/h, One bottle of essential oil can be used for 400 hours Third gear: 0.1 mL/h, One bottle of essential oil can be used for 200 hours

09 Parameters

Product name	Wireless Aerial Diffuser	Noise	45dB
Model	H4000L	Coverage	1000 Sq.ft
Material	Aerial Aluminum Alloy	Product certification	FCC, CE, RoHS
Max Power	10w	Product Size	101*120*200mm
Input Power	DC 5V 2A (Type-C)	Package Size	250*200*100mm
Essential Oil Volume	100mL	Net Weight	3.7kg
Battery Capacity	10000mAh	Gross Weight	4kg

10 Troubleshooting

Troubleshooting: Please refer to the instructions below for diagnosis and attempt to repair before requesting a return to the factory for repair.

Fault type	Method of exclusion
Device not working	(1) Please check whether the power adapter is DC5V-2A and the DC end has been inserted correctly? (2) Is the working program set by the equipment correctly (ie working time)? (3) Is the air pump working? (4) Is there an airflow obstruction case at the mist outlet, and whether the air outlet pipe is blocked? (5) Whether the oil display light is blocked? (6) Whether the essential head is tightened completely.
No operation and no vibration	Whether the essential oil bottle and the atomizing head are tightened, whether the sealing ring of the atomizing head is deformed or damaged.
