03 Usage method

How to fill the oil bottle

- 1.Rotate and remove the atomizer.** **2. Rotate and remove the oil bottle.** **3.Fill the aroma oil to the diffuser bottle.** **4. Attach the bottle and atomizer and it is ready to use.**

Essential oil replacement

- △1.Please stop the device for 2 minutes before adding essential oils again, and unscrew the essential oil bottle after the essential oils inside the mold head return.
△2.It is recommended to control the amount of essential oil added within 45 days each time to avoid deterioration of essential oil due to oxidation.

04 Maintenance

To ensure the best fragrance diffusion effect, customers should inspect and maintain the device every six months. When a new fragrance is needed or the diffusion effect is weak, the device should also be maintained:

1. Unscrew the used oil bottle.

2.Pour a suitable amount of alcohol into the oil bottle and clean the bottle.

3. After cleaning, pour a small amount of alcohol into the oil bottle and install it in the diffuser, and turn on the diffuser working for 5-8 minutes.

4. After the diffuser is cleaned, turn off the power.

05 Parameters

Product name	Destop Aroma Diffuser	Product type	Waterless Aroma Diffuer With Battery
Product model	MiniPro	Product size	Φ120* 300mm
Power	10W	Net Weight	1.25kg
Input	DC5V-1A(Type-C)	Gross Weight	1.6kg
Coverage	120m²/350m³	Packing list	Aroma diffuser + Adapter(option) + Cable
Oil bottle capacity	100ML	Machine noise	≤30dB

06 Troubleshooting

Troubleshooting: *Please refer to the instructions below for diagnosis and attempt to repair before requesting a return to the factory for repair.

Fault type	Method of exclusion
Device not working	①Please check whether the power adapter is DC5V-2A and the DC end has been inserted correctly? ②Is the working program set by the equipment currently in working hours?
No atomization, small atomization	① Is the air pump working? ② Is there an airflow atomizing core at the mist outlet, and whether the oil suction pipe is loose or blocked? Is the sealing ring of the air nozzle damaged or falling off?
Oil spill	Whether the essential oil bottle and the atomizing head are tightened, whether the sealing ring of the atomizing head is deformed or damaged.
Abnormal noise	① The air pump is loose, fix the air pump again. ② The air pump is damaged, replace it with a new one.

07 Attention

- Do not use overloaded power sockets, damaged power cables or adapters, or your safety may be endangered. To avoid fire hazards, please replace them in time if found.
- If you are not a technician, please do not attempt to modify, disassemble, or repair the device to avoid damage to the device.
- If the device is abnormal, please check whether it is operating according to the normal use requirements, or check according to the troubleshooting, if you can't solve it, please contact the seller in time.
Do not invert or tilt the device when in use.
- If the equipment needs to be transported to other sites, please maintain and clean the equipment first (see Equipment Maintenance for details) before packaging and transporting to avoid damage to the equipment from penetration of essential oils.
- Please maintain and clean the equipment regularly to ensure that the equipment is in the best working condition.
